Considerable snow fell Saturday, the first of the present winter, but for some time it was so damp that it melted as it touched the earth. Francis A. Tillman, son of Mr. and Mrs. R. B. Tillman of this city, has decided to locate in Farmington after several years electrical work in St. Louis. He has secured space in the Rickus building, which the Lockridge Harness shop has shared with him, and where he will open up next Monday with a well selected line of electrical goods, of every description.

Mr. Tillman has selected Farmington as the field for entering business on his own behalf partly for the reason that it is his old home, but more especially for the reason he believes the opportunities are large here for that kind of goods and work.

The county bridge and road gangs have been busy the past week putting down a cement floor in about half the large space covered by the large county machine barn in this city. The cemented part will be used for a machine shop, where the road machinery will be repaired, and will be a good investment for the county. A very pressing requirement at this time is for more room to store the county's road machinery, as the present quarters are already over-crowded with expensive machinery, which, among other things, is composed of five Garford trucks, two Kelley-Springfield trucks, a caterpillar engine, three rock crushers, a Ford truck, a gasoline 10-ton roller and two gasoline wagon tanks. The best of housing for such machinery is the greatest economy.

### We Wanted a Change

We were getting a dollar six bits for our corn, We could sell every hide, from the hoo's to the horns, But we wanted a change, and we got it.

Now we're getting a quarter for corn—it's so cheap That we'll burn it for fuel, our toes want to keep, We can't sell the hides, so we bury them deep, But we wanted a change, and we got it.

The poor working man pulled down eight bucks a day, No whe's darn glad to work for half of that pay, But he wanted a change, and he got it.

There was work and a plenty for every man's son, And warm food and shelter when that work was done, Now millions are idle where before there were none, But we wanted a change and we got it.

Mr. Wilson spent quite a long time over there, For peace he was fighting, but what'd we care? We wanted a change and we got it.

Now all that we read of is golf and vacations, Gay week-ends at summer resorts and plantations, (Not what we expect from the head of the nation), But we wanted a change and we got it.

We were prosperous and happy, well fed and gay, Now millions of children go hungry each day, We wanted a change and we got it.

Meanwhile, we hear this: "It was certain to come— Reaction from war times"—and war three years done! If we wanted a lemon, we sure did pick one, Well, we wanted a change. And we've got it.

Omaha, Worly-Herald.
